

IEEE Canada

IEEE Canada Awards 2019

The IEEE is delighted to announce the winners of the 2019 merit awards. This year, IEEE Canada's merit awards will recognize nine outstanding Canadian engineers for their exemplary contributions to engineering.

IEEE Canada President Maike Luiken will present the merit awards at the IEEE Canada Awards Gala in Edmonton May 6, 2019. We hope that you will join us to celebrate the award winners for their contributions to engineering.

A.G.L. McNaughton Award

For Contributions to the Development of Microwave Filters and Radio Frequency Micro Electro-Mechanical Systems

Professor Raafat R. Mansour

C.C. Gotlieb Computer Award

For outstanding contributions to biomedical computing and computer-assisted medical interventions

Dr. Parvin Mousavi

R.A. Fessenden Award

For highly influential contributions to innovative networking algorithms and protocols for mobile communications

Professor Xuemin Shen

P.D. Ziogas Electric Power Award

For contributions to power system protection

Dr. Bogdan Kasztenny

Outstanding Engineer Award

For contributions to the development of innovative space technology and to the Canadian engineering community

Dr. Shen-En Qian

J.M. Ham Outstanding Engineering Educator Award

For the Dual Education Program

Dr. Tom Murad

W.S. Read Outstanding Service Award

For outstanding and sustained service to the Communications and Information Theory Montreal Chapter, the IEEE Montreal Section, IEEE Canada, TISP in Canada, and the Institute

Dr. Anader Benyamin-Seeyar

M.B. Broughton Central Canada Merit Award

For the advancement of Smart Power Integrated Circuit Technology

Dr. Wai Tung Ng

J.J. Archambault Eastern Canada Merit Award

For exceptional volunteering, contributions and guidance supporting Engineering innovation in Quebec and to the IEEE Montreal Section

Dr. Frédéric Nabki

IEEE Canada gratefully thanks all those who submitted and endorsed this year's nominations, and encourages all members to nominate again next year.
